Collection of Information and Use

If you elect to (i) join our mailing list, (ii) obtain a Clinical Access Account or (iii) obtain a Training Access Account through the Website, we collect some information that can be directly associated with you. We call this information "Personal Information".

If you elect to join our mailing list to electronically receive the Enroll! Newsletter, we will collect your email address. By joining our mailing list, you have granted us permission to use your Personal Information to send you emails ("opt-in") relating to the Enroll-HD Study (including the Enroll! Newsletter) and other Huntington's disease related research and information. If you have received an email from us, our records indicate that you joined our mailing list. Because we respect your time and attention, we make every effort to control the frequency of our emails. You may revoke the permission you have given us to use your Personal Information to send you emails ("opt-out") for the mailing list by sending an email to AccountSetup@Enroll-HD.org or by following the instructions set out in our e-mails.

If you elect to obtain a Clinical Access Account in order to enable you to access and obtain clinical data and biosamples taken as part of the Enroll-HD Study to be used as part of your research, we will collect your name, title, email address, phone number and the name and address of the company or research institution with which you are affiliated and a description of your research project. This Personal Information is used to verify that you are employed by the company or research institution with which you indicate
you are affiliated and to communicate directly with you and to give you access to, or provide you with, any requested clinical data or biosamples. If you elect to access or obtain clinical data and biosamples, a brief description of your research project (which is provided by you) and your name and the name of the company or research institution with which you are affiliated will be posted on the Website.

If you elect to obtain a Training Access Account in order to enable you to access and use training courses/materials relating to your conduct of the Enroll-HD Study, we will collect your name, title, email address, phone number and the name and address of the company or research institution with which you are affiliated. This Personal Information is used to verify that you are employed by the company or research institution with which you indicate you are affiliated and that such company or research institution is a study site in the Enroll-HD Study and to communicate directly with you and to give you access to, or provide you with, any requested training courses/materials. If you elect to obtain a Training Access Account and access the training courses/materials, we will collect information about which training courses/materials you have accessed, the dates you accessed and completed any such accessed training courses/materials and the test scores (or pass/fail results) that you obtain through the completion of any training assessments included in any such accessed training courses. This information will be entered into the Enroll-HD Electronic Data Capture (EDC) system as a record of whether you have completed training courses required for your conduct of the Enroll-HD Study as well as whether you have passed each such training course. Your test scores (or pass/fail results) may be shared with the company or research institution with which you indicate you are affiliated and/or CHDI Foundation, Inc. for the purpose of confirming your eligibility to conduct the Enroll-HD Study.

Additionally, we may aggregate Personal Information in a manner such that the end-product does not personally identify you or any other user of the Website. For example, we may use the aggregated Personal Information to calculate the percentage of the Training Access Account users who pass/fail a specific training course. Such aggregate information/end-product may be used for any purpose.
